EDUCATION

STT Duta Bangsa University, Bekasi, Indonesia
Bachelor of Industrial Mechanical Engineering, 2007–2011

COURSES & CERTIFICATIONS

- Microsoft Azure Developer Associate (AZ-204)
- Full-Stack Web Development with React and .NET Core

PORTFOLIO HIGHLIGHTS

Credit & PPOB Server
Built a desktop-based credit refill application (VB.NET), successfully commercialized with 20+ active customers.

School Fingerprint System
Developed a school attendance system with WhatsApp notification features for real-time monitoring.

Finance System
Built an accounting system using ASP.NET.

E-commerce Integration (Shopee Open Platform)
Implemented end-to-end integration for product, order, and transaction synchronization, including authentication handling, data mapping, and process orchestration in backend .NET

TECHNICAL SKILLS

- **ASP.NET MVC, C#**
- **SQL Server & Database Design**
- **JavaScript, CSS, React.js**
- **RESTful Web Development**
- **System Analysis & Requirement Gathering**
- **Workflow System Development**
- **Performance Optimization & Debugging**
- **Android Dev (java)**
- **AWS S3 Integrated**

WORK EXPERIENCE

Pelindo Daya Sejahtera
.NET Developer | 2022 - June 2026

- Built an automated cryptographic document signing engine integrated with AWS S3 for secure document asset storage.
- Developed scalable RESTful integration services for state-authorized tax administration compliance APIs using .NET Core Web API.
- Optimized automated enterprise accounting workflows and manual accruals to integrate seamlessly with core ERP finance systems.
- Managed application hosting on IIS servers and orchestrated version control using TFS (Team Foundation Server).

Inti Data Anugrah Pratama
.NET Developer | 2021 - June 2022

- Developed desktop and web-based .NET applications for internal company requirements.
- Built a fingerprint-based attendance system with integration into payroll software.
- Implemented reporting systems using Crystal Reports.
- Assisted in the integration of hardware with VB.NET-based applications.

Freelance (Self Employed / Individual)
.NET Developer | February 2021 - November 2021

- Developed the "Mobile BL Print" application using Xamarin .NET for printing shipping receipts and tracking numbers.
- Developed a fingerprint attendance system and generated time-table reports using VB.NET.

Top Coach Indonesia
IT Staff | November 2020 – February 2021

- Managed and optimized browser configurations for organizational use.
- Performed regular data backups for all company records.
- Ensured stable network connectivity and system communication for all workstations.
- Maintained and troubleshooted computer networking issues.

Freelancer (Self Employed / Individual)
.NET Developer | 2011 – November 2020

- Developed a desktop-based credit (pulsa) server application using VB.NET with modem integration as a transaction gateway.
- Integrated applications with WhatsApp, Telegram, and SMS for reseller transactions.
