EXPERIENCE

STUDENTS

2020-2023

- I studied at the Nurul Furqon Al-Quran Islamic boarding school. There I studied tajwid, fiqh, nahwu shorof, and morals. So that after I graduated from Islamic boarding school I could apply what I learned at Islamic boarding school.

2023-2026

- I also studied at Vocational School Wikrama Bogor and I entered the PPLG major. In the PPLG department I learned how to develop software, web design, create websites, applications and games. So after graduating from Wikrama Vocational School I was ready to work.
